

GREEN RETROFIT

Sustainable retrofit ceiling solutions by Armstrong

Over 150 years development

Cork

Learn more about our Cork Ceiling Tiles. Cork is a natural, renewable resource that is harvested from the bark of the cork oak tree. It is a sustainable material that is also fire-resistant and sound-absorbing. For more information, visit our website at www.armstrongceiling.com.

Dubai Airport

Energy Saving

Phase change material / Thermal mass

User comfort

Air quality and acoustic

WHY RETROFIT?!

Recycling

Production > Off cut / End of life

Canopy solutions

Cloud in the building! Scandal!!!
